### DETAILED ACTION

1. This office action is in response to applicant's amendments and remarks filed on May 28, 2008.
2. **Claims 20 and 21** are newly added for consideration.
3. **Claims 20 and 21** are now cancelled in Examiner's Amendment as indicated below.
4. **Claims 1-19** are currently allowed.
5. The rejections under 35 U.S.C. §103 to Claims 1-19 are withdrawn in view of Applicant's amendments and/or remarks relating to the claims filed on May 28, 2008, specifically Pg. 7-11 with regard to the rejection under 35 U.S.C. §103, *and* Pg. 12-13, responding to Examiner's arguments in the Advisory Action dated April 29, 2008.

### EXAMINER'S AMENDMENT

6. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
7. Authorization for this examiner's amendment was given in a telephone interview with Attorney (Grey) Cheng-Kang Hsu (Reg. No. 61007) on July 31, 2008.
8. The application has been amended as follows:
  - a. With regard to Claims 20 and 21, the claims are now cancelled.

***REASONS FOR ALLOWANCE***

9. The following is an examiner's statement of reasons for allowance:

The instant invention is generally relates to an image processing system and method, which are provided for judging whether a pixelised image or a part thereof is a monochrome or a color image, the judgment is made for all the pixels of the image or image part at the same time by analyzing the cumulative histogram, wherein the distance of each pixel to the gray axis versus the logarithm of the cumulative pixel count is plotted, instead of making judgement on the level of an individual pixel, for an advantage of high sensitivity for detecting small color objects in monochrome images.

**With regard to Claim 1**, the closest prior arts of record, Bares (U.S. Pub. No. 2002/0075491), and Smilansky (U.S. Pub. No. 2002/0102013), do not disclose or suggest, among the other limitations, the additional required limitation of *“forming a cumulative histogram by plotting for the pixels of said pixelised image a value of said shortest distance versus a cumulative pixel count being the number of associated pixels having at least said value of said shortest distance; and analyzing a relationship between the pixels in said cumulative histogram and based thereon judging whether said pixelised image is to be processed as a monochrome image or a color image”*. These additional features in combination with all the other features required in the claimed invention are neither taught nor suggested by Bares and Smilansky.

**With regard to Claims 2-9**, the claims are depending from the independent Claim 1, each encompasses the required limitations recited in the independent claim discussed above.

**With regard to Claim 10**, the closest prior arts of record, Bares and Smilansky, do not disclose or suggest, among the other limitations, the additional required limitation of “*an analyzer for analyzing a relationship between the pixels of said pixelised image in a cumulative histogram, said cumulative histogram being formed by plotting for the pixels of said pixelised image a value of said shortest distance versus a cumulative pixel count being the number of associated pixels having at least said value of said shortest distance; and a judging unit for judging, based on said relationship between the pixels in said cumulative histogram, whether said pixelised image is to be processed as a monochrome image or a color image*”. These additional features in combination with all the other features required in the claimed invention are neither taught nor suggested by Bares and Smilansky.

**With regard to Claims 11-19**, the claims are depending from the independent Claim 10, each encompasses the required limitations recited in the independent claim discussed above.

10. Claims No. 1-19 are therefore allowed.

11. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
